- Clear and objective analysis; compact and client friendly.
- Cost effective, time saving.

Who *theScreeener* works with:

- Finance Portals
- Private Banks
- Portfolio Managers
- Asset Managers

theScreener for Finance Portals

Anyone who has ever surfed understands how hard it is to ride the board and read the waves. Sometimes you miss the ideal entry point; sometimes you ride the wrong wave. *theScreener* can help you break through the financial markets' whitewater wall and catch the best waves before they break.

The right decisions are made with the right information.

Quantity, when used correctly, can produce quality. With this simple principle *theScreener* filters all available information about an investment and generates an independent and easily understandable evaluation. Your e-traders benefit because *theScreener* makes it easier for them to make investment decisions, and you benefit from actively trading clients.

Our offering

With *theScreener's* data on your Internet Portal we will custom tailor the analysis, ratings and graphics to fit your specific needs and visual presentation.

theScreener offers the following decision making triggers:

- Opportunity rating
- Risk rating
- Alternative proposals
- Upgrades and Downgrades
- Checklist view and Summary view

theScreener for Private Banks

Searching for something undefined certainly has its charm, just ask any passionate mushroom hunter in the forest. *theScreener*, on the other hand, knows exactly what to look for in the thick of the financial markets. Less charming? Perhaps. More rewarding? Of course.

You can search... or let *theScreener* find it for you.

By providing access to uniformly processed analysis *theScreener* facilitates investment selection and documentation, thus enabling your client advisors to work more efficiently. Furthermore your advisors will gain crucial substance thanks to *theScreener*'s broad securities coverage. Integrate *theScreener*'s evaluations into your portfolio views and your advisors will instantly improve consistency and make a greater impact on their clients.

Our offering

Empower your client advisors with *theScreener*'s dynamic analysis of:

- More than 5,000 companies and securities worldwide
- National and regional markets
- A wide range of industries, sectors and indices

theScreener's analysis is updated twice a week, available in several languages, and can be white labeled to adapt to your own brand guidelines.

theScreener for Portfolio Managers

To avoid hidden dangers, a cross-country skier must have a strategy. But what guides you when risks and opportunities are not clearly defined and only theoretical knowledge is at hand? *theScreener* systematically analyses the financial terrain to uncover the hidden risks and opportunities. We're ready to be your guide.

A strategy without information is not a strategy.

theScreener professional provides portfolio managers with an efficient, well-structured tool for implementing investment strategies. It provides access to crucial assessments of companies, securities, indices, and sectors worldwide. Each and every analysis is objective, directly comparable, and user friendly.

Our offering

With *theScreener* professional comes password protected access to this powerful on-line application. Included are sophisticated search capabilities, alerts, model portfolios, and extensive reporting tools at a fixed annual cost with unlimited usage.

Inside *theScreener* professional:

- Filtering options covering markets, ratings, risk, change, and more
- Sector analysis
- Market analysis
- Equity analysis
- Risk ratings
- Individual alarm settings
- Clear presentation of results
- Detailed overview of individual securities
- Model portfolios and watch lists
- Multilingual business analysis and fully formatted reports

theScreener for Asset Managers

A glider pilot depends on reliable evidence of invisible air currents. Even the most experienced pilot never quite knows where the ideal thermal awaits. Navigating the financial markets presents a similar challenge. With *theScreener* you can be sure you will receive the most reliable research to help you make your decisions.

How far you get in the market depends on the quality of available information.

theScreener Advisory Service provides ideal support for efficient asset management. Use our analytical tools for strategic decisions, from the definition of optimal investment strategies to specific trade recommendations for your funds and hedge funds. Expand your existing knowledge and know-how quickly and efficiently with our global coverage of companies, markets and industries.

Our offering

How it works:

You determine the investment priorities for your funds or hedge funds regarding markets, industries, performance and risk. Then, based on historical databases and the company's own simulation program, *theScreener* develops a customized investment approach, chooses the specific selection criteria, and sets hedge values according to set targets.

theScreener monitors the investments and provides you with detailed trading proposals, as well as applicable hedging degrees, depending on the perceived market phase.

theScreener is the market leader for independent valuations of financial securities, equities, sectors and markets. *theScreener*'s ratings, analyses and search functions are used by banks, asset managers and finance portals. With the evaluation of all relevant securities and countries, *theScreener* offers some of the widest research coverage worldwide. Approximately 10,000 workstations benefit from *theScreener*'s services, with over a million customer accounts actively analyzed.
