

SUCCESSFULLY PROMOTE SUSTAINABLE INVESTMENTS

ESG RATINGS

theScreener ESG offers you access to sustainability assessments of about 3'000 companies from the leading Swiss ESG Rating Agency Inrate. Integrated into theScreener Research reports, this gives you the opportunity to easily and effectively use sustainability assessments in your customer communication and include them in your consulting sessions. The reports can be used during the consultation, as a handout or for documentation within the consulting process.

In this way, you can offer your clients first-class support in investment decisions – including sustainability aspects – and meet the regulatory requirements.

theScreener ESG – Sustainable investments
simple and effective

Highlights:

- High quality ESG data from the leading Swiss ESG rating agency Inrate
- Comprehensive evaluation according to environmental, social and governmental criteria
- Beyond traditional ESG analysis by measuring impacts
- Helps investors assess ESG characteristics
- Completely transparent and comparable through absolute and relative ratings
- Meets the regulatory requirements
